Creating Change through Dialogue

Purposeful leadership
for a connected world

2022 Programmes

A two-day programme for leaders, coaches and change agents who want to lead powerful conversations and catalyse sustainable change

High performing teams don't get stuck in talking tough, talking nice or not talking at all. They have the conversations that matter most including about purpose, ways of working and strategic priorities.

Creating Change through Dialogue is a skill-building programme that provides practical tools to shift stuck dynamics. It gives you the know-how to participate in and lead powerful conversations that create positive change to increase performance and wellbeing.

Who needs dialogue?

Participating in this programme will enable you to expand your leadership skillset whether you are:

- A business leader in the private, public or not-for-profit sector
- An executive coach who catalyses change in organizations
- A community leader who has a vision to generate radical social change

What are the benefits?

Research shows that better dialogue delivers measurable benefits, including improved team performance, more satisfied customers and higher profitability. There is an art and science to holding powerful meetings where people do their best thinking and commit to aligned action. Participating in this programme enables you to:

- Lead conversations that mobilise people's energy for action
- Intervene skillfully in teams, groups and systems so that new thinking emerges
- Co-create change by listening to each individual and the wisdom of the whole room

What will you learn?

Participating in this programme will enable you to lead conversations that draw on the intelligence of people around you to improve decisions, innovation, and productivity by:

- Creating the conditions for authentic dialogue that accesses collective intelligence
- Showing up more powerfully as who you really are by displaying new behaviours
- Making change happen by intervening in systems, teams and groups with new skills

A well-tested experiential approach

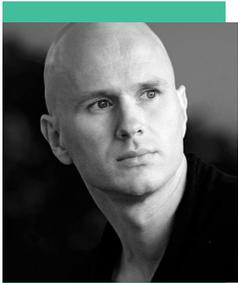

The programme consists of a unique and energizing weave of experiential exercises, personal reflection, research inputs and whole group dialogue. Instead of the typical role play approach we draw on a rich diversity of fields including applied psychology, organisational dialogue and systemic constellations. Prior to the programme, you'll have the opportunity to identify a current leadership challenge to explore and move forward.
